Roberti[®]
OUTDOOR PLEASURE

Designed to embrace a more fluid and contemporary way of inhabiting outdoor spaces, the Open Living Collection explores the balance between comfort, versatility and architectural clarity. Each piece is conceived to move seamlessly between residential and hospitality settings, supporting a relaxed yet refined lifestyle. Clean silhouettes, durable materials and carefully studied proportions define a cohesive system of seating solutions, where performance meets a quiet, understated elegance.

Venetian

Venetian combines essential lines with a sense of relaxed sophistication, offering a versatile solution for contemporary outdoor living. Its compact yet comfortable structure is designed to suit both private and contract environments, from garden settings to refined hospitality spaces.

The interplay between solid volumes and soft cushions creates a balanced composition, where functionality and aesthetic clarity coexist in a timeless, understated design, with a refined and cohesive identity..

Setai

Defined by its generous volumes and low, inviting profile, Setai reinterprets outdoor seating with a focus on softness and compositional freedom. The modular structure allows for flexible configurations, adapting effortlessly to both intimate residential settings and larger hospitality environments.

Upholstered elements enhance comfort while maintaining a clean, contemporary aesthetic, resulting in a seating system that feels both relaxed and architecturally grounded, with a strong visual presence.

Sunset Harbour

Sunset Harbour evokes a sense of openness and continuity, where linear forms and balanced proportions create a refined yet approachable presence. The design emphasizes lightness and visual rhythm, making it ideal for terraces, lounges and hospitality spaces.

Carefully selected materials ensure durability in outdoor conditions, while the understated elegance of its structure allows it to integrate naturally into a wide range of architectural contexts.
